PROFESSIONAL SUMMARY

Fresh graduate in Informatics Engineering (GPA 3.21/4.00) from Telkom University with hands-on experience in full stack web development and UI/UX design. Proficient in React, Laravel, PHP, and Figma, with a proven track record delivering real-world projects ranging from e-commerce platforms to healthcare applications. Currently interning as a Full Stack Engineer, converting Figma designs into production-ready code. Eager to grow in a dynamic software development team as a Junior Frontend or Full Stack Developer.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React, Bootstrap

Backend: PHP, Laravel, SQL, Python, Java

CMS & Tools: WordPress, Figma, VS Code, Git/GitHub

Soft Skills: Team Leadership, Public Speaking, Time Management, Collaboration

WORK EXPERIENCE

Mores Strategics — Hybrid — Bandung

April 2026 – Present

Internship: Full Stack Engineer

- Converted Figma mockups into responsive, pixel-perfect HTML/CSS/JS code, reducing design-to-code handoff time significantly.
- Built dynamic UI components including navigation menus, interactive buttons, and CSS animation effects to enhance user experience.
- Collaborated closely with the design team to ensure visual consistency and cross-browser compatibility.

PT Global Tekno Solusi — WFH

July 2024 – August 2025

Internship: Frontend Developer

- Design Conversion (Slicing): Converting a visual design from a mockup (e.g. Figma) into a functional and precise code structure.
- Interaction Development: Building dynamic interface components, including navigation, buttons, and animation effects to bring the website to life.
- Performance & UX Optimization: Ensures fast website performance, responsive display on all screen sizes, and a comfortable user experience.

HUMIC Engineering Research Center — Hybrid — Bandung

May 2024 – June 2024

Project-Based Internship: WordPress Specialist

- Developed and launched the CoE Humic Engineering website using WordPress, covering full setup, theming, and plugin configuration.
- Implemented the Research Products page and Community Service page, improving content discoverability for the research center.
- Coordinated with the research team to align website structure with organizational goals and content requirements.

PROJECTS

Pasar Kuliah (PasKu) — E-Commerce Web App

March 2024 – April 2024

Stack: Laravel, PHP, MySQL, Bootstrap, JavaScript

- Built a full-featured online marketplace platform for Telkom University students to buy and sell goods across multiple product categories.
- Implemented product listing, search, and category filter features, enabling fast and efficient product discovery.
- Designed the database schema and backend logic using Laravel MVC architecture.

Toko Petani (ToPet) — Agriculture E-Commerce

October 2023 – January 2024

Stack: HTML, CSS, JavaScript, PHP, MySQL

- Developed an agricultural e-commerce website enabling farmers in rural areas to purchase supplies online, reducing travel time and cost.
- Designed user-friendly product pages and a cart system tailored to low-tech users in the agriculture sector.

MyDoctor — Health Consultation App UI

October 2023 – December 2023

Stack: Figma (UI/UX Design)

- Designed end-to-end UI/UX for a health consultation app serving the Bandung area, supporting both online and offline consultation flows.
- Created wireframes, prototypes, and final high-fidelity designs in Figma, including registration, doctor selection, and medical history features.
- Focused on accessibility and intuitive navigation to ensure ease of use across diverse user demographics.

EDUCATION

Telkom University — Bandung, Indonesia

September 2021 – August 2025

Bachelor of Informatics Engineering | GPA: 3.21 / 4.00

- Relevant coursework: Algorithms & Programming (Python), Object-Oriented Programming (Java), User Experience Design (Figma), Interaction Design (Figma), Introduction to Programming & Logic (JavaScript & PHP), Analysis and Design of Information Systems.

ORGANIZATIONAL EXPERIENCE

HIMAIF Telkom University — Student Representative Body (BPM) — Bandung 2023

DURT Staff — Household Affairs Council

- Led and directed a team of intern staff in managing all internal scheduling and organizational events.
- Coordinated with campus administration and external parties for cross-departmental collaborative events.
- Facilitated team cohesion activities and managed internal communication across the organization.

CERTIFICATIONS
